

# WAITING TO Inhale

## SYNOPSIS

***“Waiting To Inhale: The Movie”*** is a comedy based on a day in the summertime of Atlanta, Georgia when four suburban kids spend the entire day searching for some marijuana to smoke.

Nate, Zulu, Pimp, and Zulu’s little brother, Larry, drive all over the city searching for a marijuana dealer in the city, only to keep running into situations that makes it more difficult to complete the mission. Everything from buying fake marijuana, to bad marijuana, to being harassed by local police patrol. Nate’s neighbor, Big Roe, and his friends, sell marijuana but won’t do business with Nate because of an old high school love triangle that went sour. To make matters worse, Nate and his friends must get some marijuana before the sun goes down, because that’s when the Midnight Robbing Crew starts making their rounds. AB+L Radio personality, Fly Ty, is keeping Nate and friends updated on the legalization of recreational marijuana in the state of Georgia, via car radio, while they ride through the city.

Nate is older now, tired of living with his mother, and looking to go back to school. Zulu, a former high school star athlete, wants to go back to school and play football. Pimp is just another childhood friend who just so happens to be a ladies’ man. Lil’ Larry, Zulu’s overly-mannish younger brother, is forced to hang with Zulu while their mother is at work. They’re all on different paths in life. However, on this particular day, they are all on the same path. They are all WAITING TO INHALE!

This story is full of fun, laughter, and suspense. Follow Nate and his friends on this one-day comedic journey to inhale.
